

I love Laura McCabe's Rivolis in Bloom necklace on the cover of the August/September 2007 issue, but I had a hard time finding all of the materials I needed for the project. After a trip to Bead Fest Philadelphia (beadfest.com) and contacting Beyond Beadery (www.beyondbeadery.com), as you suggested, I have found everything I need to make the beautiful necklace.

Since I couldn't find the exact colors that Laura used, I used the following rivolis instead:

- 16mm light vitrail (purple/blue) rivolis
- 14mm medium vitrail (green/red) rivolis
- 2mm volcano (red/blue) rivolis

Then I matched the rivolis with an assortment of seed bead colors closest to what Laura used:

- Delica cinnamon gold luster (DB-0126)
- Topaz gold luster (11-311 and 15-311)
- Soft purple gold AB (DB509)
- Golden olive (DB0124)
- Light olivine gold matte silver-lined (15-F03A)
- Chartreuse silver-lined (15-014)

I really appreciate all of the time you put into finding resources for me to make this project. I absolutely love your magazine!
