

A photograph of a rustic interior. In the background, a dark wooden chest with metal hardware sits on a wooden floor. To the left, a wicker basket is filled with colorful yarn balls. In the foreground, a knitted rug with a colorful landscape scene and a black and white checkered border lies on the floor. The rug depicts a red barn, a yellow field, a green field, and a blue sky. The text is overlaid on the image.

FARMHOUSE RUG

The Farmhouse Rug is a good introduction to intarsia knitting. Inspired by traditional folk art, its country scene reflects the fertile fields of the great plains of Oklahoma which designer Keely Stuever knows so well.

QUICK KNIT RUG

The Quick-Knit Rug goes even faster. Both rugs wear well and can be machine-washed using the hand-wash cycle and cold water. Knitted on size 17 needles, it's a quick project.
