

Notes

- » This shawl is completely reversible.
- » The Set-Up Row for the Shawl Body chart does not accurately reflect the spacing and number of dc's needed across the full size of the shawl border—300 dc.
- » Please follow written Set-Up Row instructions to achieve 300 dc evenly spaced along lower edges of shawl. Do not worry if you struggle to get the spacing exactly right. The important thing is that you have 300 dc to work Row 1 of the Edging.
