## PRINT THE PDF

1. Open the pattern sheet PDF pages using Adobe Acrobat Reader X or higher. This is a free download available at <http://www.adobe.com/products/reader.html>
2. When preparing to print the PDF, make sure that you are printing it at "Actual Size" (100%) and that there is no scaling. Check the settings for page scaling (should be "None") and check the preview to make sure that you will be printing at full size. Make sure that the box labeled "Auto-Rotate and Center" is unchecked. (These instructions apply specifically to Adobe Reader. If you're using another PDF reader, check for similar settings.)
3. To ensure that the pattern prints at the correct scale, start by printing only this first page (Page 1), and check the size of the squares. The smaller box measures 1", the larger box measures 5 cm. Be sure to measure exactly.
4. Print the remaining pattern sheet PDF pages once you've confirmed the size of the square.

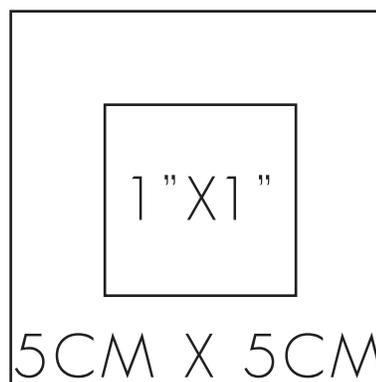

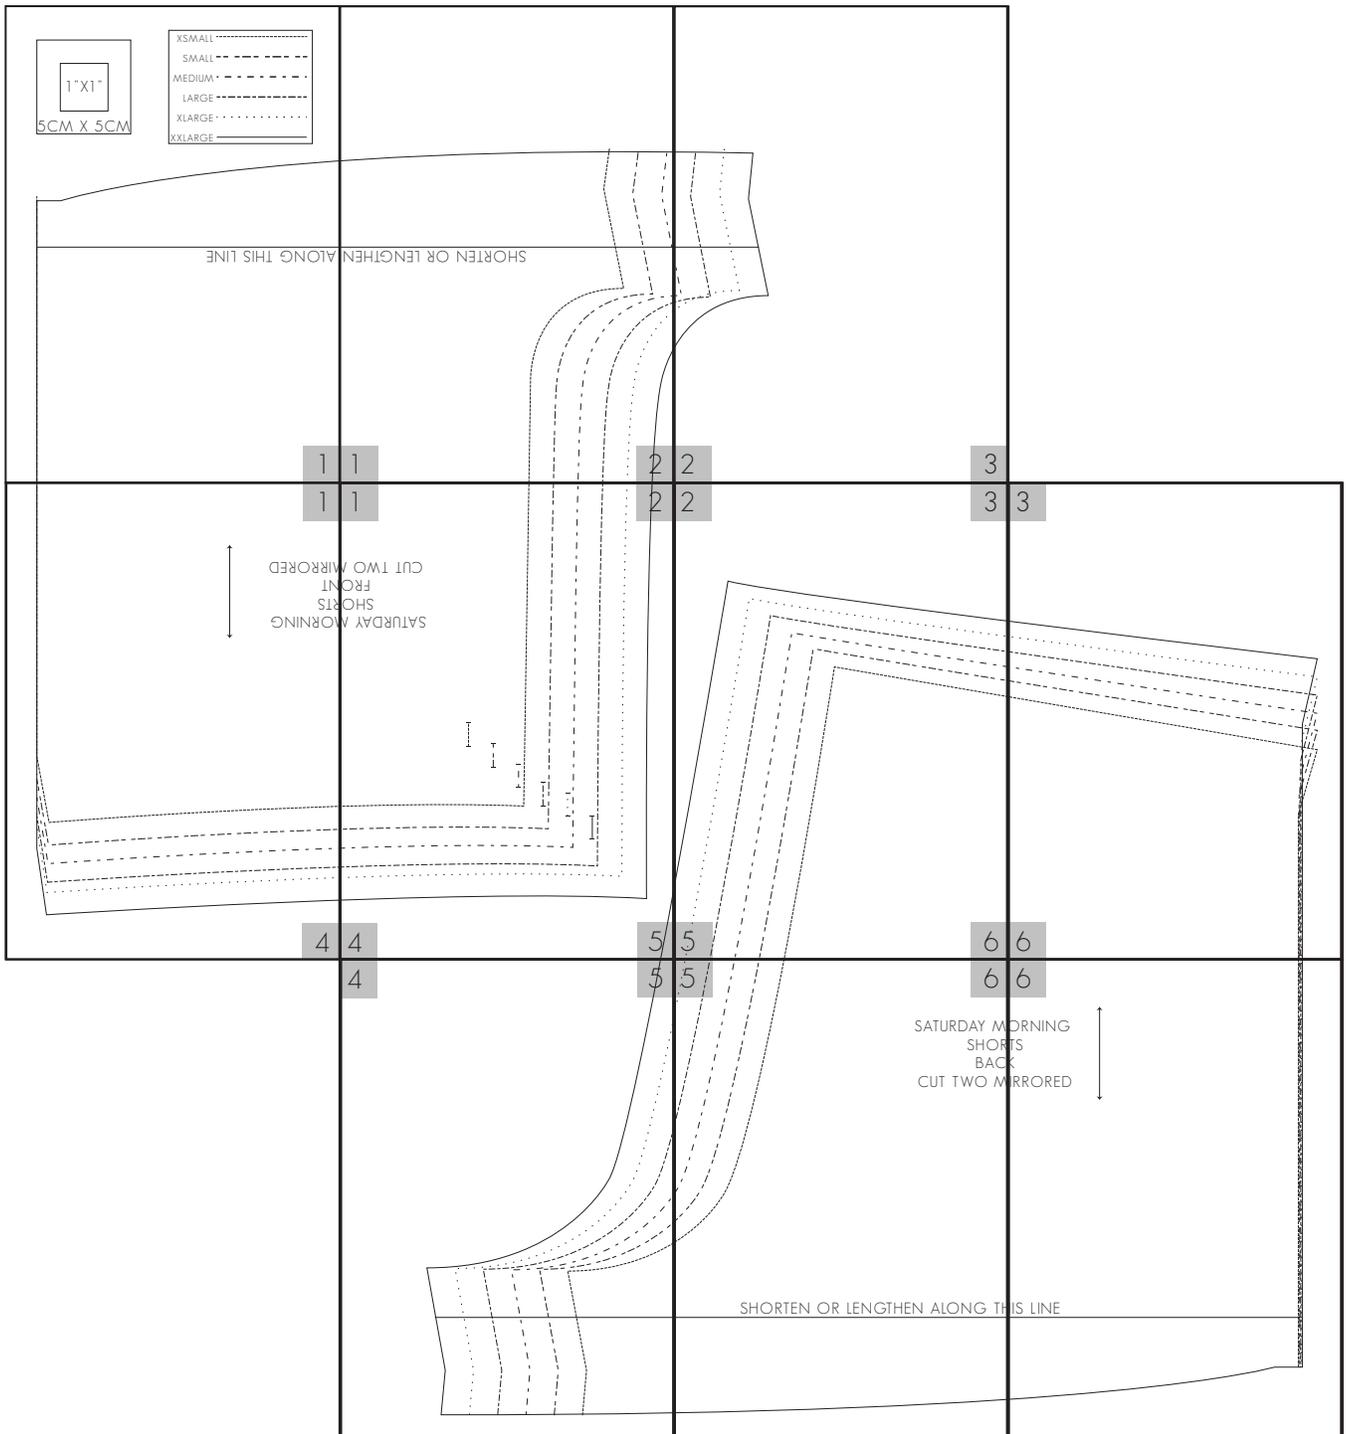

## ASSEMBLE THE PDF

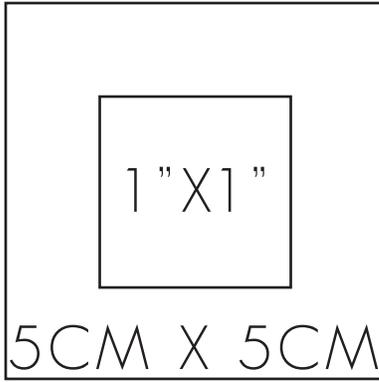

1. Cut along the TOP and LEFT sides of each page.
2. Using the gray squares as guides, align the pages so the pattern lines continue. Tape the pages together as you go to create one giant pattern page. Use the layout on the following page as a guide.

## TRACE YOUR PIECES

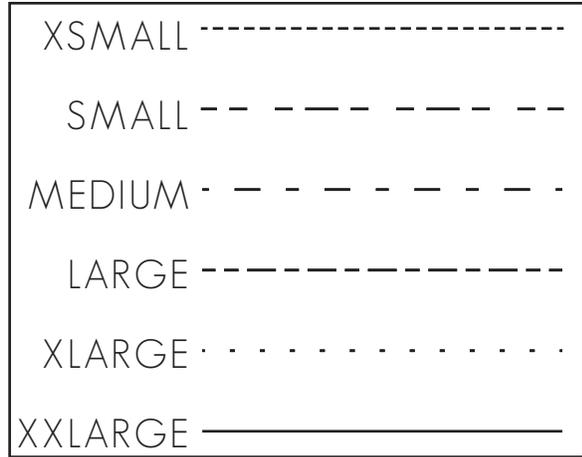

1. Use pattern tracing paper to trace your size or simply cut out the size you want to use. Since these are PDFs, you can print and reprint as many times as you'd like!
